Yours: One set of 13 VCD's on Childhealth

..... if your pre-school participates in the

MOTOR PERFORMANCE AWARD SCHEME

The Hong Kong Childhealth Foundation invites you to help improve the health and fitness of all children entrusted to your care. It is an invitation which is being extended to the principals of hundreds of pre-schools throughout Hong Kong and it comes to you with the support and encouragement of the Education Department as well as sponsorship from the Quality Education Fund.

Key to this Childhealth Foundation campaign is the 2001 - 2002 Motor Performance Award Scheme, which aims to promote motor performance in pre-school children.

To encourage maximum participation we are offering all pre-schools taking part a set of 12 VCD's through which a group of paediatric professionals will teach 12 health topics. Among subjects covered: immunisation, surgical problems, infectious illnesses, nutrition, infant-feeding, dental care, home safety, care of new-born babies, asthma, psychological problems and growth and development. A 13th data CD will contain relevant lecture notes.

Our hope is that you will encourage your members of staff to acquire a greater knowledge of childhealth by viewing the VCD's and perhaps, subsequently, by taking our Certificate Course examination. You may wish also to encourage parents to view the VCD presentations. It may be helpful to you to know the VCD's have been uploaded to our website <http://www.childhealthhongkong.com>
